## Clan league champions and prize

I bet everyone has been wondering "who won the clan league?!?!?" or "What was the prize?!?!?" Well.... Let's just say the people who won and the people who were hoping to see what the prize was were upset. But we'll get to that later on.

The winning clan league team was [Inq]. Congratulations, everyone was happy because many people like the clan, I myself was happy too. But then again this prize thing, let's say we have a series of joints that people REALLY thought would be the prize. Like "Hydra", "Typhoon", and "Titan". Some even thought that it would be joint textures! Well it was the same ol' demon set. Not set as in everything but the main parts (Force, relax, and blood).

I thought that was a good prize even though Spirit had won it last year's league. Many were upset at this. Even the clan leader or (was) leader for [Inq] was disappointed in the prize. Some people even asked "So if spirit would have won, they would have be given demon too?". The answer was yes. Many people felt that Bman, AlexOwnz and maybe Ishi were overhyping the prizes making the sound as if it were a whole new color. But what is done is done, and the demon was already sent out, so be happy with what you got because it could have been 1 Chronos set. See you next time. Here is a quote from veb himself. "Sorry about the lack of prizes for the Clan League, the reason for this was simply a communication breakdown between the organizers of the Clan League and the Nabi guys. Hopefully, whoever runs the League next time will do a lot better at organizing and communicating with everybody involved, including those responsible for the prizes".

Before this is done, I would like to say congratulations [Inq] I hope you enjoy what you won and live long. Tune in next time for "Over flowing clans".

## Shook's Rants : Cockwads

So, children, today I will rant to you about why cockwads are bad. What's a cockwad, you ask? Well, it's simple, really. It's a troll who will massage his e-penis at any given opportunity, often even without reason. You try to talk sense into them, and they'll just start spewing insults at you like there is no tomorrow. I mean, what the fuck is up with that? You don't get any cooler by offending people, and being racist doesn't make your e-penis larger.

In fact, behavior like that makes them deserve to have their cock ripped off! I want to CURSE AND FLAME LIKE F\*\*\*ING HELL whenever i see one of those jerks. Like, "What's your timezone?" "Better than your satanic eurofag timezone". See what i mean?

They deserve no better than having their ass torn apart by a vicious mechanical jacklift, and thereafter get drowned in a pool of their own defiled shit which is on its way towards a black hole. Ugh. Just SPEAKING about them makes me want to tear them apart with my bare hands, shove their heads even further up their asses than usual, kick a damned morningstar down their headless throats and so on. A pile of beaver shit is worth more money than those things. They aren't even humans. Why? Humans are generally intelligent. Cockwads? They don't know what it is to BREATHE. Their very essence is defiled, down to the very last quark. Defiled with pure, unthinned and excessively potent STUPIDITY. If a cockwad ever was to make physical contact with an intelligent being, the whole damn universe would annihilate. They are that anti-intelligent.

And lastly, i will end this rant with a cockwad imitation: "Oh no, my cock is shrinking, i must make it grow! Who can i insult now? Hey, he said something, i'm going to get all racist on him, that will surely make my cock grow again!"

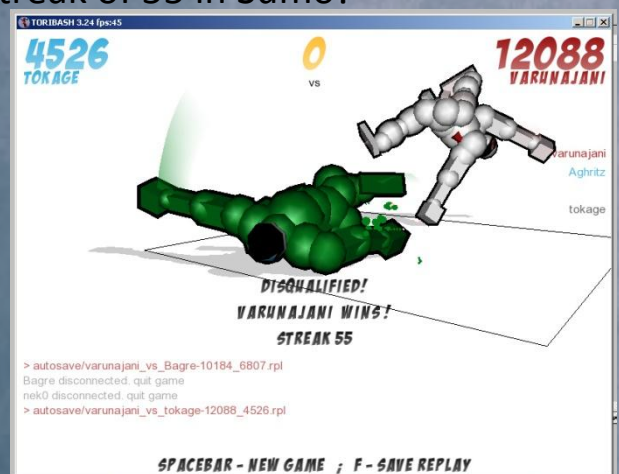

Queers, all of them.

- Shook

# LIVE MY NEWBIE LIFE

by Candide

## Hi everybody!

This story was written for the old newbies who are probably now some kinds of PGM in ToriBash and who have therefore forgotten how hard it is to be a noob! I hope I am right when I say that this article could have been written down by everyone at least one day in a life. If not, what can I say..? Too bad for me!

So I introduce myself: I'm a 22 years old French player who hangs out in the computer world and who is known as Candide whether it be in Tori world or in the real life ©. I was recently upgraded Brown Belt but I'm still considering as a noob since two weeks ago I had never played yet. Thus my first feelings are freshening so fresh...

First sight of the game when looking at Melmoth during class who performed an untold number of movements on a jiggling puppet and as incredible as it seems who succeeded in making coherent actions and carving up violently his opponents on the bounce. In the same time on the right, another friend tried miserably to simply touch the inanimate doll in front of him but he only succeeded in squirming ridiculously, hitting himself and finally fell over to give sometimes a last kick to Uke's feet like a jittery boy.

Fortunately I didn't look like that when doing my first moves 'cause Melmoth taught me a wonderful trick: the C key who makes you more rigid than a young virgin who've got a stripper ahead. So you enter the arena and try to hit your adversary with more or less of success since the time you need to understand how to punch correctly, you are already suffering the pain of a middle kick and as a consequence you catch on that your only chance is to stay off the ground no matter how and pray that the other guy tangle his legs and fall dismally over ;p

After this first attempts I received another gift...

- Wait man I will show you a little technique in jousting.
- So you contract left pec, right pec, extends...
- Hey, wait, don't kindle yourself! Speak to me with words.
- Sorry! So pecs mouse wheel upwards, legs mouse wheel downwards, click the neck, ...
- Got it! Oh yes it works very well. That's it, I'm a roxXor Death!
- ...

RoxXor... or not! You see, the difference between a green belt and a black belt is that they start in the same position, they arrive in the same position but when the green belt is exploding into your feet, the black belt infiltrate the tiny gap between your feet and your hands and simply halve you.

Then there is a long period during which you try a lot of movements: "Okay so this one definitely doesn't work!". You discover also other mods: "Hey! What's that bug?! Why he's not DQ by touching the ground?" You can note by the way that DQ doesn't mean Doggy Qabab. You also wondering why other Toris are more stylin than yours and realize that you can in fact buy "black balls" if you win 30.000 fights! However you can sometimes gain some items or ToriCredits if you send a replay of a Tori who beheads its opponent in dancing hip-hop and if you post simultaneously the best joke you find. An example of joke? *The ToriShop in the game run smoothly*© (May'be someday who knows?) Furthermore you find out what is a "Master Belt"...

The last thing I would like to speak about is girlfriends. Indeed a girlfriend can merely accept the fact that it is funny to play a role game where you discover a beautiful world but it is very harsh for her to comprehend the sense of "making a puppet do stupid movements by clicking anywhere and dressing it as a Barbie doll". And I can add that my girlfriend is in my computer school!

Finally now I get along a little, got some skills which empower me to survive! I'm becoming radioactive o\_o and I am capable of dismembering bodies, too often mine yet but one day I promise, I will be a ToriJedi and nobody will be able to hurt me!! OMFG What I'm saying right now?

Well I stop here. See you soon on the ring and newcomers: have fun (and space it)!

## ISHI INTERVIEW

<NinjaAiPoM> Hello ishi, thank you for accepting this interview

<NinjaAiPoM> How old are you?

**<Ishi> : Im 17**

<NinjaAiPoM> What do you do in your spare time?

**<Ishi> At the moment looking for a job**

<NinjaAiPoM> what sort of job?

**<Ishi> Something that pays money**

<NinjaAiPoM> but what are you interested in?

**<Ishi> Well, im going to take classes on coding. Or i might just be a tech guy that fixes computers**

<NinjaAiPoM> that would be good, it probably suits you because you're on the computer a lot

**<Ishi> Indeed**

<NinjaAiPoM> What's your favorite part of toribash?

**<Ishi> The community, its the only reason i have stayed this long.**

<NinjaAiPoM> That's exactly what Samule said lol

**<Ishi> lol**

<NinjaAiPoM> Do you know samule?

**<Ishi> Well we live kind of close together, I haven't talked to him on the phone or anything**

<NinjaAiPoM> Great minds think alike

<NinjaAiPoM> Ishi and Samule think alike

<NinjaAiPoM> so, the community of toribash is very strong, but what do you think holds it together?

**<Ishi> Definatly the admins, they set the rules, and us mods execute them**

<NinjaAiPoM> What's the best part of being a mod?

**<Ishi> That's a good question, its fun to help people, and have people come to you with their problems.. But being a mod so long.. its getting a bit boring**

<NinjaAiPoM> I'll happily take your place, i'd love to help toribash

<NinjaAiPoM> lol

**<Ishi> Heh, well, even without me, we are pretty over staffed . We have a great team of mods.**

<NinjaAiPoM> toribash doesnt need any more mods, the mods atm are brilliant

<NinjaAiPoM> how do you change what happens in toribash, do you do a poll among mods?

**<Ishi> We deal with most matters with sekrit stuff, I can't really remember the last time we had a poll**

<NinjaAiPoM> secret stuff, what does that mean, do you just post new rules?

**<Ishi> We may or may not have a private board where we discuss things**

<NinjaAiPoM> Do you know when in-game user title colors will come out?

<NinjaAiPoM> ye, avwave told me he radomly got it

<NinjaAiPoM> he doesnt know who sent it to him

<NinjaAiPoM> but the acid ones are well too bright

**<Ishi> Yeah, I might get a marine one, i think it would look cool**

<NinjaAiPoM> It would, is toribash 3.3 coming out soon, or more new items?

**<Ishi> Not sure, I know that there have been a lot of bugs with 3.3, more work for the devteam.**

<NinjaAiPoM> What will 3.3 include?

**<Ishi> Its main feature are the new mod options, if you look at the mod board you can see a lot of new 3.3 mods ... I can't remember what else it has at the moment >.>**

<NinjaAiPoM> I cant wait for 3.3, i love new mods, but some suck

**<Ishi> Yeah, some people just try and make simple stuff with worldbuilder**

<NinjaAiPoM> What are your favorite mods?

**<Ishi> Let's see.... I really like the rondel daggers mod, and the throwing axe act mod**

**<Ishi> Skazz and shook are really pumping out some great mods**

**<Ishi> I like Kickbox and Aikido the best, im probably the best at Aikido, and sometimes get lucky at Judo**

<NinjaAiPoM> Final question, what's better oranges or apples?

<Ishi> **watermelon**

<NinjaAiPoM> lol

<NinjaAiPoM> Thank you ishi for this great interview and bye

<Ishi> **Thanks, bye**

## **PATRICK\_UNRATED INTERVIEW**

LineTori: I heard you have some upcoming tournaments coming. Could you give some information on these tournaments?

**Patrick\_Unrated: Yes, seeing how my Tag Team Tourney should be coming to an end soon, I asked for suggestions about a series of forum based tourneys I could host. Shogan was the first to respond with a simple of a Fine Art contest.**

**Patrick\_Unrated: I said, "What a great Idea," and then it started.**

**Patrick\_Unrated: You will be able to see the comp under the sticky list in the events board. We already have one piece of art in already that is pretty good.**

LineTori: Okay, so could you tell us what the Fine Art contest are all about?

**Patrick\_Unrated: The purpose of these competitions are to find the best non based computer artist in the forums. At the same time, hoping everyone has a fun time drawing and trying to win prizes.**

**Patrick\_Unrated: We really hope everyone has a great time. That's our main purpose.**

LineTori: I have a question, so you can't photoshop the scanned drawings?

**Patrick\_Unrated: No. This goes against our biggest rules for the comp. Photoshopping the pictures on your computer ruins the whole point of the competition. We are not looking to see how well you are with the computer, but more for how good you are with your hands. We will be able to tell photoshop pictures out from others when being rated.**

LineTori: Okay, just making it clear.

**Patrick\_Unrated: Yes, that is fine, and I hope everyone else realises this also.**

LineTori: So, who do you think who makes a good chance if he/she participates?

**Patrick\_Unrated: Everyone has the same chance as the next. You and myself have as much of a chance as Hampa, or the newest person to the game.**

**Patrick\_Unrated: It all depends on how much time and work you put into it.**

LineTori: Yes, I understand, but I meant if you have seen good drawings in for example the general arts board?

**Patrick\_Unrated: Well, I have seen some good ones before; I feel many of them could make it to the finals if they try, but I don't want to give out names. I don't want people to think that those people are the only ones with the chance. Everyone has the same chance.**

LineTori: Ok. Can you give something clear about the prizes?

**Patrick\_Unrated: The one based on Toribash will always have a slightly higher prize, but mostly be about the same.**

LineTori: Okay, I can't wait to see some of the entries! Anything you want to say to the big public?

**Patrick\_Unrated: I would like to tell the public to make sure they put long hard work into all their work. We are looking for the best, and the ones that seemed to take a lot of time. Make as many pictures as you want, and submit them. The more pictures you post, the more chances you have of getting one of yours picked. Also, if you do not win the first time, wait till the next comp of the series comes up and try again. You always have a good chance**

**Patrick\_Unrated: I would also like to tell the public that I am anxious to see all their work and Good Luck. Most of all, just have fun.**

LineTori: Yes, thank you for your time!

## SAMULE INTERVIEW

PROFILES

NinjaAiPoM: Hi Samule

**Samule: HOT!**

**Samule: Is That Bad?**

NinjaAiPoM: I dunno

NinjaAiPoM: Anyway, what's the best thing about toribash?

**Samule: I just made a thread about that actually. Uhhh.. I'd have to say the community. A lot of people eventually stop playing the game, but they find it very hard to leave. I think it is a very unique community, and people learn a lot about each other and everyone. You think of all of them... well, most of them... as your friends.**

NinjaAiPoM: Yes,i agree,i almost left, but i cant resist, toribash is too good

**Samule: I've been at points like that severel times**

NinjaAiPoM: Well im sure we don't want you to leave

NinjaAiPoM: What's the worst thing about toribash?

**Samule: Uhhh.... I don't want to talk about that**

NinjaAiPoM: well i hate noobs who call me a noob when they really are

**Samule: I like newbs**

NinjaAiPoM: I suppose they make toribash more exciting

**Samule: Yeah, I like getting to meet them and help them adapt to the community.**

NinjaAiPoM: Do you get a happy feeling after helping them?

**Samule: Yes. it starts in my pants and goes up through my fingertips.**

NinjaAiPoM: lol

NinjaAiPoM: I'm sure they get a happy feeling after being helped

**Samule: I hope so. Well, I'm not so sure. A third of them are double-clienters.**

NinjaAiPoM: yes, that sux

**Samule : And an occasional quintuple clienter. XD**

NinjaAiPoM: XD

NinjaAiPoM : Have you ever seen a server with 2 people of the same name (farming)?

**Samule: Yeah, several times.**

NinjaAiPoM: Those dudes annoy me, we work hard earning tc and they do it in a few mins

**Samule: It's happened twice today already.**

NinjaAiPoM: That's very bad

NinjaAiPoM: I wonder what we can do to stop it

NinjaAiPoM: I'll admit this, but I farmed before, but just to see if it works, I didnt earn much tc's, coz I only did it for a minute, i have many screenshots of farmers, but can't be bothered to post them anywhere

**Samule: Well, a current dilemma is that some people have multiple accounts with the alike or completely different names, and that they have the same IP. When you catch them, they say the other account is a brother, sister, cousin, etc. And there is no way to prove it.**

NinjaAiPoM: That really sux, you can call these guys n00bs

NinjaAiPoM: What's your favorite style and why?

**Samule: for a long time I used hold all, but now I use limp most of the time, and half of the time in Taekyon. Its looks smoother, more realistic, and a lot trickier in some cases.**

NinjaAiPoM: What is your favorite mod?

**Samule : Hmmm... I can't really say. There are loads of mods. The one that sticks out most in my mind is platformfight2, right when Toribash version 3 came out, because all of the servers had it. If you were to say mode, my answer would be obvious. Tae Kyon, the origin and basis of [Kick].**

NinjaAiPoM: Ye, I suck at TK, I don't know how to do it well

NinjaAiPoM: im a wushu,judo,sambo guy

**Samule: I like freestyle too, I don't like judo or wushu much, classic is good**

NinjaAiPoM: anyway, thanks for the interview and have a good day

**Samule : Goodnight. It's 12:28 AM. XD**
